## MESSAGE FROM THE EXECUTIVE DIRECTOR

*This Annual Report contains the performance of the program activities for the period of January to December 2016. We are pleased to let to know that Aloshikha underpinning services and programmes during this period, has implemented effectively with the donor support. Aloshikha's implementing program activities are designed for the benefit of the poor and marginalized people through-out the community service delivery. Aloshikha is committed to continue its support for the underserved and marginalized people especially in the hard to reach areas. It is a great satisfaction and honor to serve our best to the most in needy peoples (hard core poverty peoples) of Bangladesh in the areas of education, Vocational Training, Reproductive Health and education and rights. Our dedicated and hard working staffs, field workers are contributed to implement those programmes over our working areas. But we do believe that it needs more support and potentiality to work betterment of the marginalized and disadvantaged peoples under various form of programmes to improve projects and initiatives in response to the needs of our beneficiaries.*

*We are facing lot of e challenges and limitations to accomplishing the planned activities. We have tried to show and mentioned those Limitations and challenges in this report with an indication of ways to overcomes.*

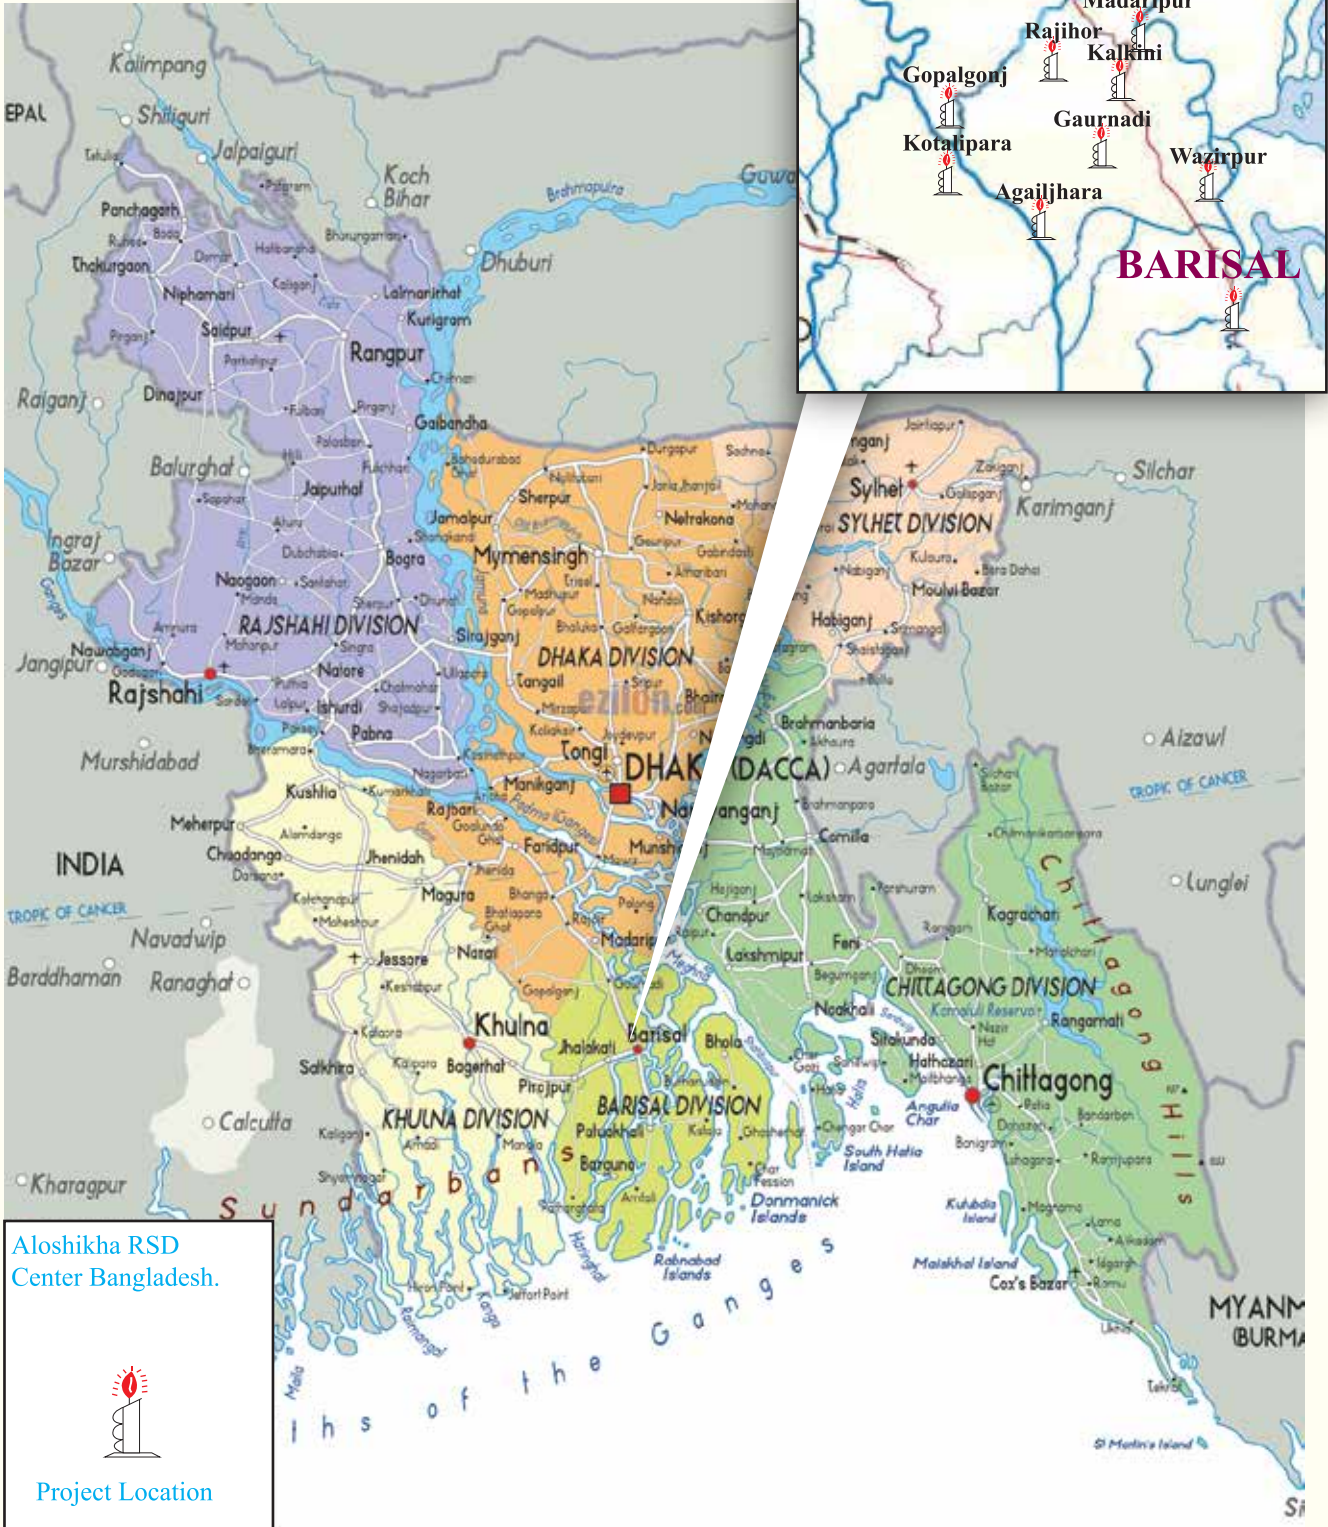

*2016 was a momentous year for Aloshikha RSD Center Bangladesh. We are Just celebrating 39 years of operations from our inception, and that challenging journey is going to fruitful, with active support from the people of the southwest region and generous support from development partners and respective donors. We have made significant differences to the lives and landscape of this disadvantaged region.*

*I also wish to pay my thanks and greatness to donors, Development partners as well as Aloshikha staffs (Field level, Branch and Headquarter Staffs) for their recognize, sincere and dedicated services to successfully implementing the program activities within the limited resources.*

**James Mridul Halder**  
Executive director.

**Core Values:**

- Innovation
- Empowerment
- Comprehensiveness
- Compassion, loyalty and commitment.
- Equality and participation
- Integrity, dedication, and professionalism.
- Responsibility, accountability and transparency.

# Welcome to Aloshikha RSD Center Bangladesh

## Annual Report-2016

### **Introduction**

The Aloshikha RSD Center is now just acting as windows on applied knowledge and provides links to source of information. It is working harder exclusively in rural areas; the greater numbers are involved in water and sanitation, vocational training and education, hospital for health promotion, closely followed by environment and forestry, fisheries and micro credits, providing small loans. In recent years, the donor has initiated several development projects addressing issues of coastal zone management and targeting programs to enhance livelihoods of the coastal population and trying out to empowering vulnerable rural poor women groups with economically empowered by transferring asset and shops for alternative income generation and self-employment.

Empowering the rural poor is a prerequisite for sustainable development and exercise of their rights. It requires challenging exclusion, discrimination and exploitation of and against the landless, women, indigenous people and other dispossessed. The Aloshikha RSD Center Bangladesh is a professionally managed not for profit making charity based social development organization, registered with the social welfare ministry, NGO Affaires Bureau, micro credit regulatory and also affiliated by the ministry of health and family planning department in Bangladesh. The Aloshikha is committed to address various social and economic problems of the economically depressed and vulnerable groups in general. Empowerment of communities is a central focus issue of all Aloshikha's development initiatives. Over the years, the organization has extended its geographical, beneficiary and programmatic coverage quite significantly. The long term development program now includes education both non formal and vocational training education, micro finance, poultry and fishery and water supply and sanitation. All this work is aimed at supporting disadvantaged poor people. Over the year we have to face many difficulties and challenges with political unrest and natural disaster as well as financial constraints.

By the late 1995 an integrated comprehensive program superseded its sectoral work, focused on concentrated group organization of the poor, emphasizing social, education and economic elements. Since the Aloshikha successes have included the community based health and sanitation program to improving life on the out reach and remote villages are raising awareness of women rights and women empowerment, promoting savings, credit and skill training to improve the livelihoods of the poor section of the community. The Aloshikha program continues to evolve and innovate; current realities mean the program now comprises a range of various projects and financing large and small, which all contribute to a common objective. However, we are always encouraging to the local communities to developing all form of education in general or vocational education that could be make them smart and expertise to engaged any job or self supportive or self-employments.

This report is a testimony to the fact that with a synergetic approach towards development with support from the donor community and the local people a lot can be done to improve livelihoods.

### **Aloshikha Mission statement:**

Aloshikha is a Bangladeshi non-profitable humanitarian non-government organization supporting the holistic development of poor and landless people in the rural marshlands between Gopalganj, Madaripur and Barisal.

### **Aloshikha will support the development in the following ways:**

To create awareness on the importance of child and blow education among local people.

- To create awareness on health, sanitation, women development issues and community problems To organize targeted poor people in small groups and make them skilled through education, training's workshops and meetings etc.
- To encourage and motivate poor people to take steps to reduce their problems, improve their health conditions and their income.
- To encourage and support the poor people to start their own activities in order to create their own income, so that they will become self- sustained.
- To provide among children and their development through nutrition coverage, child health education, nutritious food, creativity materials etc.
- To provide the safe water supply for hygienic health through the DTWs and distribution sanitary latrine to the community people as sanitation coverage.
- To encourage and convinced to the community people to provide renewable energy as solar system technology for alternative electricity.
- To create employment opportunity and job replacement among the local unemployed youth both the girls and boys and to export skill work force to the international labor market a vocational training center has launched in the Aloshikha complex.
- Among local people and to encourage them to change the present situation.

### **Women Empowerment:**

Women in Bangladesh are in many ways inferior to and dependent on men from early childhood. But many women believe equality, equal rights, freedom from violence, free choice and full participation in all areas of society, political and work should be more than just dreams.

Empowerment facilitates women to access resources such as food, land, income and other forms of wealth, and social resources such as knowledge, power, prestige within the family and community Aloshikha is really realized those factors and consequences and agreed to actively promote women and women's rights. Aloshikha has undertaken several activities for the vulnerable women to be economically sustain. The activities for the poor rural women are included ; women legal rights, gender equality at family at family and community level: domestic violence: sexual harassment and rape: reproductive health provision, trafficking of women and girls and migrant women, early marriages and dowries. Aloshikha is operating awareness raising ,advocacy campaigns, livelihood improving projects to carried out across the spectrum stakeholders and beneficiaries.

### **Promotion of Self Migration and Rights:**

The program particularly focused on promotion of self migration and rights of Bangladeshi rural migrant workers in the area of pre-departure, post- arrival and reintegration assistance of migrants, who are returning from the Middle east countries. The program aims to establishing of pre-departure services and assistance in destination countries and upon returning. The underpinning activities are included awareness rising on safe migration and prevention of undocumented migration/ risk of trafficking, reintegration and advocacy in in general. The main objective of this program is to promoting supportive environment for migrant workers and their families at all stages of migration with regards to respect for the rights and dignity.

He has consider Aloshikha RSD Center as a firm category and issued License, after close scrutiny and necessary desk work .. Aloshikha has got an Individual category license at initial level to rear up- to 10 Deer. But now Aloshikha got the Firm level permission and would be able to rear 28 Deer. Currently the Firm has 28 Deer and established heavily protection with the wire net boundary. We are managing the rear programme under an excellent proper scientific management with treatment and care.

## A Case Study of Liton & Kalpana Bakshi.

I am Liton Bakshi about 35 years. I was passing my family life (wife and children) under very measureable conditions due to extreme poverty and limited scope of work. This hardcore poverty life was very stressful to manage day to day family needs( Foods, Children's Education, Health service and Clothing) We are living at Rajihar village and it was very close to Aloskhikha RSD Center under Agailjhara sub-district and in the district of Barisal, Bangladesh. Basically I am a day laborer and lost my land. Currently I am living one of my bothers lands, temporary basis, until and unless find or manage other places to live or shift my family as much as quickly. However, my only one daughter, Setu Bakshi had been reading class ten and my son Tapos Bakshi in class eight. My household wife name is Kalpana Bakshi is passing busy time with her one cow that is giving milk. Now milk is only source of income. We have arranged marriage of our daughter with a farmer by the grace of almighty God, few days later. The new groom house is located faraway from my village. After successfully completing my daughter marriage programe, my only thinking was to manage money to buy the piece of land for sheltering where I would be able to build small cottage to take a free breathing . Fortunately, Aloskhikha provide the opportunity to set-up and operate street food shop. I have prepared various kind of different tasty food items for the rural villagers. My restaurant food items are included coffee, tea, different cold drinks, Cake, sweet bread etc food items; those are very desirable to group of customers. I have also set-up garments rack for various kind garments both men, women and children beside the restaurant This clothing section is look after by my wife. The restaurant is well furnished with nicely decorated to attack the passing by customers. The restaurant is becoming crowds with potential customers in the morning to evening till midnight due to suitable location by the road side. I have arranged TV at our restaurant and supplied pure coffee, while customers are enjoying TV serial, news and different popular programme In a word the shop is running well with promisingly and assuming that I may be able to save money from my business and after few years, it will help to fulfill my dream to purchase a piece of land to build my small cottage I would like to pay my thanks to Aloskhikha and really grateful to Aloskhikha to provide the opportunity to set-up the street shop to fulfill my dream.

Liton Bakshi

## B. Aloshikha Sheikh Rassel Digital Lab; Computer Training

### **Short course computer training programe exam is running.**

Aloshikha RSD center has awarded to set-up Sheikh Russell Digital lab under the support engagement; Ministry of ICT on March-2016. Sheikh Rassel Digital Lab is fully equipped by 17 high configured laptops, One projector, One printer, One Scanner and furniture. Aloshikha is operating computer training for young boys and girls, who are running student of our vocational training institute. We have also completed two short course training session on Computer of SEIP project funded by PKSF.

## C. Integrated Rural Health Support Programme

The Aloshikha RSD center is always prioritizing the child health care and nutrition's deficiency. To eliminate the child mortality and malnutrition, Aloshikha RSD Center has taken initiative and long run programme called "Integrated Rural Health Support Programme" for the remote villagers. The key aims of the programme is to build-up awareness, process to take nutritional food using the local vegetables (yard gardening) and food resources. This program is funded by the SAKO Foundation, the Netherlands to strengthening the capacity of out-reach workers. Our health motivators are organizing nutrition campaign at field level to address the plight and problem of child health care services. This year Aloshikha has organized 12 nutrition camps at different villages among malnourished babies and mothers, where 372 malnourished mothers were present during nutrition camps.

Checked-up pregnant mother with motivational work.

Health motivator & supervisor gathering together with mother and children for motivation the nutritious food and display the different card.

Green vegetable are processing before Nutrition camp

Hotchpotch cooked on at Nutrition Camp for malnourished children.

## D. Pre-school program

Aloshikha RSD center is operating pre-school under a programme called “PRIMA” over different part of Rajihar Upazila, in Barisal., Madaripur and Gopalganj district since last 16 years. We have established 41 pre-schools and enrolled more than 1230 students in total. 98% students have successfully completed final examination and achieved literacy programme to get admission into formal primary schools. 30 Children age about 5 to 6 per school is getting admission according the PRIMA project provision and the course duration is two years only. This pre-school programme is designed to improve learning knowledge in various common issues such as child rights and abusing, child labour and it’s bad impact including literacy and numeracy through participatory learning methods, so that after two years about 600 children able to admit to the government primary school. Aloshikha is providing free medical check up and quality sanitation and hygiene facilities and nutritious feeding to children through PRIMA programme.

Feeding program for pre-school students

New Uniform for the pre-school children

### Aloshikha at a glance of pre-schools & Kindergarten information 2011-2012-2013-2014-2015-2016:

Pre-schools teachers	40	40	40	41	41	41
Kindergarten teachers	21	21	21	21	21	21

## E. Bath Merry Orphan Home

Alshikha RSD center has established the Bath Merry Orphan Home on November-2014 with the aims to assist and support to the Orphan boys for education, clothing, food and health care services. Bath Merry Home Orphan has collected 10 (ten) children (Boys only) who have no parents or relatives to look after or caring and living under extreme poor circumstances. We got some donation for the children to buy Books, Khatas and uniforms from Doctor of the world; Johanna de Vries and Suen on last year. Now Alshikha RSD Center is providing support and orphan home care services to 20 (Twenty) children for food, clothing, education, shelter and healthcare support. It is very hard to manage

and maintain keep support and assistance to those orphans alone by Alshikha RSD Center. Alshikha is appealing to its donor, contributor and social worker to contribute a small amount for those children to grow-up and betterment of their lives. Please deposit your grant or financial assistant : **Account Name: Alshikha Rajihar Social Development Centre, Rajihar; Account No: 01-5507391-01. SWIFT CODE: SCBLBDDXXX; Bank Name: Standard Chartered Bank, Dhaka, Bangladesh.** Your small contribution will help to grow-up the children by food, clothing and healthcare.

## F. Education program (Kindergarten school):

Alshikha believes that education is important for all and without education, none can take part the nation building process. Kindergarten school education is greatly contributing to achieve quality education for children. The Kindergarten education system is bit costly rather than formal primary education in rural context. Alshikha RSD Center has set-up one kindergarten school in its campus and getting very popular in the locality. Alshikha has expanded the Kindergarten schooling programme over Barisal district and established three more kindergarten schools in different places. The main focus of the programme is to ensure quality education with creativity activities on regular basis for pupils cognitive development. Alshikha is also organizing consultation session with parent to discuss about the pupils learning progress, challenges and barrier, home task, parent's roles and responsibilities at home, school's service feedback etc. issues in quarterly. Most of kindergarten schools are mainly academic oriented, but we have included extra curriculum activities among the students to learn awareness on social and cultural heritage issues;

## G. VTC Program

The Alosikhha RSD Center is operating one vocational training center in its complex since-2009. The main focus of the program is to create job replacement among the rural unemployed youth both the girls and boys. Alosikhha RSD Center has got the permission from the Bangladesh Technical Education Board (BTEB) to run SSC Vocational Courses.

### List of Vocational Training Courses:

S.N.	Training Course Name	Sub Component	Training Services
1	<b>Mechanical</b>	<b>Auto Mobile</b>	Petrol Engine
			Diesel Engine
		<b>Machine Man</b>	Lath, Milling, Spared, Drilling etc.
2	<b>Welding</b>	Metal Sheet, Fittings & welding, gas welding. Ark welding & piping etc.,	
3	<b>Electrical</b>	House wearing, Motor wearing, AC Motor, Dc motor, three face motor, Air condition, refrigerator, Computer installation, UPS, IPS etc.,	
4	<b>Industrial Garments &amp; Tailoring</b>	Sweater, knitted oven Swing, Stitching, Cutting, etc.,	
5	<b>IT Support</b>	Graphic designing, Web designing, hardware repairing, Word, Excell, Powerpoint, Installation etc., services training.	

Currently 30 students, both the girls and boys per trade has enrolled. The center has able to convince the local unemployed youth to undertake vocational education to involve for income generating process and job facilities at national and international labor market.

## H. Micro-credit program

The Micro-credit program is growing annually. Aloshikha working areas are the remote villages in Agailjhara, Wazirpur, Kalkini, Kotalipara, Rajoyer and sadar Gopalganj since 1995. The micro credit fund is distributing to poor and low income villagers through group saving account modality to engage the money turn into productive asset development to improve income generating activities.

Aloshikha is conducting the training program for beneficiaries and supervising, office staff and management team to utilize and managing the loan fund for betterment of the poor villagers

The integrated approach of Aloshikha micro credit program is creating new opportunities to engaging poor villagers, beneficiaries into new micro business; i.e crop sharing cultivation, off farming business, auto rickshaw pulling, operating micro shops at village corner etc;

## I. Fishing program.

The fishing is playing an important role to cover irreplaceable animal protein for poor rural households. The study addressed that the dietary contribution of fish contains Vitamin A, Calcium and Iron intakes the potential of integrating small indigenous fishes. Aloshikha has undertaken income generating programme through fish cultivation in its own 07 water bodies (ponds) both the high varieties and local indigenous species.

## J. Poultry and Dairy Program:

Aloshikha is inspiring the community peoples for poultry farm business since 19 years ago. But most of the community peoples are considering as a neglected business due to manifold problems such as bad smile from poultry. Aloshikha has achieved stupendous success through motivation and represented to the community peoples as model as one kind of profitable business. Today there are many small poultry farms are being established surrounding areas with attentions model of Aloshikha poultry farm. Aloshikha is operating poultry programme since 1986 by rearing the high breed layer, boiler and hens. It is also contribute nutrition deficiencies of the poorest peoples.

The Aloshikha has started its cow rearing program through Dairy Farm concept since 2016 and initially grassing for 9 cows, in view of to ensure pure milk production and sustainable supply to the local community as low cost.

## M. Aloshikha Solar home system Program

The Aloshikha has promoted renewable energy program as such as solar home panel system due to constant load shedding from the government electric supply sectors. In terms of some off grid areas we also provided solar home system where electric supply chain is inadequate and difficult to connect electricity from the government or non government electric supply authorities, partly because of their insufficient materials and man power and limited power generation. After a study of feasibility the organization intend to establish some solar irrigation pump to ensure food security in the rural field level with joint discussion on farmers group. It is estimated that under the solar irrigation program cultivatable all land should be come in to three cropping system in a year.

Home Solar System ( Idris Family)
