Annual Report 2017

MESSAGE FROM THE EXECUTIVE DIRECTOR

This Annual Report contains the performance of the program activities for the period of January to December 2017. We are happy that with the donor support, Aloshikha during the period has been able to effectively implement the program activities for the benefit of the poor and marginalized people through the community service delivery. The Aloshikha is committed to continue its support for the underprivileged and marginalized people especially in the hard to reach areas. It gives me great satisfaction to see that we have been able to serve the most in need people of Bangladesh in the areas of education, reproductive health, vocational training, education and rights. Once again our staffs have shown their dedication and hard work. But we do believe that more need to be done and for this we are constantly undertaking improve projects and initiatives under various programs in response to the needs of our beneficiaries. In order to the all funding agencies and donors are requested to fund us to embark on activities for the marginalized and disadvantaged people who were deprived from services and victims of social inequality.

We had to face challenges in accomplishing the planed activities. Limitations and challenges have been mentioned in this report with an indication of ways to overcome those. The needs of our service users are at the heart of everything we do and as you learn more about our values you will understand why offering quality services is integral to what we do and what we are.

The year 2017 was a momentous year for Aloshikha RSD Center Bangladesh. Just we celebrated 38 years of operations from our inception, and that has been a challenging journey, with active support from the people of the southwest region and generous support from development partners. We have made significant differences to the lives and landscape of this disadvantaged region.

I also wish to recognize the sincere and dedicated services of our staffs of the Headquarter and the Branch Offices for successfully implementing the program activities.

Centre Bangladesh

Project Location

Welcome to Aloshikha RSD Center Bangladesh

Annual Report 2017

Introduction:

The Aloshikha RSD Center is now just acting as windows on applied knowledge and provides links to source of information. It is working harder exclusively in rural areas; the greater numbers are involved in water and sanitation, vocational training and education, hospital for health promotion, closely followed by environment and forestry, fisheries and micro credits, providing small loans. In recent years, the donor has initiated several development projects addressing issues of coastal zone management and targeting programs to enhance livelihoods of the coastal population and trying out to empowering vulnerable rural poor women groups with economically empowered by transferring asset and shops for alternative income generation and self-employment.

Empowering the rural poor is a prerequisite for sustainable development and exercise of their rights. It requires challenging exclusion, discrimination and exploitation of and against the landless, women, indigenous people and other dispossessed. The Aloshikha RSD Center Bangladesh is a professionally managed not for profit making but charity based social development organization, registered with the social welfare ministry, NGO Affaires Bureau, micro credit regulatory and also affiliated by the ministry of health and family planning department in Bangladesh. The Aloshikha is committed to address various social and economic problems of the economically depressed and vulnerable groups in general. Empowerment of communities is a central focus issue of all Aloshikha's development initiatives. Over the years, the organization has extended its geographical, beneficiary and programmatic coverage quite significantly. The long term development program now includes education both non formal and vocational training education, micro finance, poultry and fishery and water supply and sanitation. All this work is aimed at supporting disadvantaged poor people. Over the year we have to face many difficulties and challenges with political unrest and natural disaster as well as financial constraints.

By the late 1995 an integrated comprehensive program superseded its sect oral work, focused on concentrated group organization of the poor, emphasizing social, education and economic elements. Since the Aloshikha successes have included the community based health and sanitation program to improving life on the out reach and remote villages are raising awareness of women rights and women empowerment, promoting savings, credit and skill training to improve the livelihoods of the poor section of the community. The Aloshikha program continues to evolve and innovate; current realities mean the program now comprises a range of various projects and financing large and small, which all contribute to a common objective. However, we are always encouraging to the local communities to developing all form of education in general or vocational education that could be make them smart and expertise to engaged any job or self supportive or self-employments.

This report is a testimony to the fact that with a synergetic approach towards development with support from the donor community and the local people a lot can be done to improve livelihoods.

Aloshikha Mission statement:

Aloshikha is a Bangladeshi non-profitable humanitarian non-government organization supporting the holistic development of poor and landless people in the rural marshlands between Gopalganj, Madaripur and Barisal.

Aloshikha will support the development in the following ways:

To create awareness on the importance of child and blow education among local people.

- To create awareness on health, sanitation, women development issues and community problems
- To organize targeted poor people in small groups and make them skilled through education, training's workshops and meetings etc.
- To encourage and motivate poor people to take steps to reduce their problems, improve their health conditions and their income.
- To encourage and support the poor people to start their own activities in order to create their own income, so that they will become self- sustained.
- To provide among children and their development through nutrition coverage, child health education, nutritious food, creativity materials etc.
- To provide the safe water supply for hygienic health through the DTWs and distribution sanitary latrine to the community people as sanitation coverage.
- To encourage and convinced to the community people to provide renewable energy as solar system technology for alternative electricity.
- To create employment opportunity and job replacement among the local unemployed youth both the girls and boys and to export skill work force to the international labor market a vocational training center has launched in the Aloshikha complex.
- Among local people and to encourage them to change the present situation.

Women Empowerment:

The situation of women in Bangladesh is still one of insecurity, low social status and economic dependence. But many women believe equality, equal rights, freedom from violence, free choice and full participation in all areas of society, political and work should be more than just dreams. The Aloshikha agrees and actively promotes women and women's issues in all respects. Areas of concern for poor rural women include: their legal rights, gender equality at family and community level: domestic violence: sexual harassment and rape: reproductive health provision, trafficking of women and girls and migrant women, early marriages and dowries. Awareness raising advocacy campaigns and practical projects are carried out across the spectrum stakeholders.

Promotion of Self Migration and Rights:

The program particularly focused on promotion of self migration and rights of Bangladeshi migrants workers: pre-departure, post- arrival and reintegration assistance for migrants to the Middle East countries. The program aims to establishing of pre-departure services and assistance in destination countries and upon return for Bangladeshi migrant workers and their families, including awareness rising on safe migration and prevention of undocumented migration/trafficking in Bangladesh society in general. The main objective of this program is to promoting supportive environment for migrant workers and their families at all stages of migration with regards to respect for the rights and dignity.

SPECIAL EVENTS FOR 2017

1. Dr. Mohammad Jashim Uddin and Md. Mashir Rahman (PKSF)

Dated: 21/01/2017

Visit of Dr. Mohammad Jashim Uddin, Md. Mashir Rahman and Kazi Farzana Sharmin for 2 batch certificate distribution on SEIP program such as welding & Fabrication and Fashion garments program. Dr. Mohammad Jashim Uddin was the chief guest and other members were special guests.

Mursil Mahmud, Quality Assurance Officer

Skill for Employment Investment Program (SEIP)

Visit date: 01.08.2017

Visit of Mursil Mahmud, quality assurance officer. They observed SEIP program and his impression on Aloshikha's all activities were good.

2. Visit to Aloshikha RSD Centre by Master card Foundation.

Visit date 20.08.2017

Visit of Master card Foundation Country Director Syed Mohammad Kamal, Zakia Sultana Laboni Director with Merilin Bristi Gomes and other two members, **WARBE** foundation program Director Jasmin Khatun to Aloshikha activities on safe migration program.

3. Visited of Md. Sharifunnabi, Monitoring officer (DPDS) from finance ministry on PKSF program implemented by Aloshikha RSD Centre.

Date: 10.10.2017

Visit of Md. Sharifunnabi, Monitoring officer (DPDS) from finance ministry for the SEIP program at Aloshikha RSD Centre and his impression on all programs was good.

Aloshikha RSD Centre

4. Aloshikha RSD Centre was visited by Nafisa Shamim Rudmila, Consultant of Japan Embassy

Date: 18.10.2017

Visit to our Mother & Child general hospital by Nafisa Shamim Rudmila, consultant of Japan Embassy and she was impressed to see Aloshikha's current activities.

5. Visit of Md. Al-Amin, Quality Assurance Officer (SEIP)

Date: 6/11/2017

Visit to Aloshikha's SEIP program by Md. Al-Amin, Quality Assurance Officer from finance ministry and he had a suitable impression on all activities of Aloshikha RSD Center.

6. Visit of Md. Habibur Rahman, Deputy Commissioner (DC), Barisal, Upazila Nirbahi Officer Asraf Ahmed Rasel, OC Abdur Razzak Molla and Rajihar Union Chairman Yealis Talukder.

Date: 13/11/2017

Honorable guest Deputy Commissioner and his group visited Aloshikha's overall activities whole day. An honorary crest was gifted by Aloshikha RSD Center. He had a good impression on all Aloshikha activities.

7. On 04/12/2017 Micro Credit Regularity Authority (MRA) Mr Pradip Kumar Ghosh, Deputy Director and Md. Abdul Hoque, Senior Assistant Director MRA visited Aloshikha RSD Center.

Aloshikha started micro credit as a small program in 1992 and still now it is continuing with a little profit.

Aloshikha RSD Centre

8. Visit of Ridder from PUM The Netherlands

Date: 07/12/2017

On 07/12/2017 Mr. Ridder visited Beth Mary Home at Aloshikha campus and a picture together with orphan children.

9. Deer Conservation Program

Aloshikha RSD Center started Deer Conservation Program in 2010. It needs close monitoring and strong security. It has a farm category license. Initially they gave Aloshikha an individual license for rearing 10 Deer. Then Govt. started farm category license which gave permission to rear more than 10 Deer. Aloshikha has 22 deer currently. Every year each female deer gives birth to a little fawn. Aloshikha gave them a heavily protection with the wire net boundary and provides proper care and treatment every year. People of all ages from different corners come to visit Aloshikha's Deer farm and enjoy themselves very much. Indeed, it is a good farming program.

A. Case Study of Bijon Biswas

Family Photo

I am Bijon Biswas of 18 years old. My family includes my parents and one little brother. Till now, I am leading a miserable life with my family due to extreme poverty because there is limited scope of work, which is impossible to meet up the demand of the family. We live in a village named Joherkandi at Ramshil, Upazila Kotalipara, Dist. Gopalganj, Bangladesh. My father is a farmer & day labor my mother house wife and my brother reads in class six at Bhangarhat High School. I have completed a six months short course on Computer and also a regular SSC vocational Electrical course at VTC Rajihar, Agailjhara, Barisal and I succeeded on the final examination with GPA 4.71 in 2017 and got a job at electrical sector in Aloshikha. My dream is to be an Electrical Engineer. Already I have admitted in Government Political College in Gopalganj. It has a course of 4 years. Now my vision and mission for future is to help my family and as well as to fight the poverty of our surround village.

Eventually I would like to thank Aloshikha RSD Center and really very grateful to give me an opportunity to study with my limited money and providing me a suitable job.

B. Shek Rasel Digital Computer Lab Implemented by Aloshikha under the Vocational Training Centre

Computer Lab & Training Center

Shek Rasel Digital Lab started in 2016. In the meantime Aloshikha got an agreement with Skill's for Employment Invest Program (SEIP) project under PKSf for a short course training of 2 batches computer training. Every batch consists of 25 students and the duration of each course is 6 months. Students from different places of the country come to get the training here. During the training period dated 21/01/2017, Dr. Md. Jashim Uddin, Md. Mashiar Rahman and Kazi Farzana Sharmin have visited Computer Training Center. At the same time, they attended the opening ceremony and certificate distribution program. They also visited Aloshikha overall programs in the campus area. They were very satisfied to see the development work of Aloshikha because it was their visit in this area after 17 years.

C. Integrated Rural Health Support Programme

checked-up pregnant mother with motivational work.

Hotchpotch cooked on at Nutrition Camp for malnourished children

The Aloshikha RSDC always gives more emphasis towards the child health care and nutrition's deficiency. The program is funded by the SAKO Foundation the Netherlands which continue to help us to work for health motivators to address the plight and problem of child health care services at field level. In the light of their visits to take the feedback of the community based health activities through field visits with health motivators and organizing the nutrition camp in the village. This year Aloshikha was organized 12 nutrition camps at different villages among malnourished babies where 365 malnourished mothers were present during nutrition camps. We motivated to the mothers about the cause of malnutrition and its consequences

Green vegetables are processing before Nutrition camp

Health motivator & supervisor gathering together with mother and children for motivation the nutritious food and display the different cards

D. Pre-school program

It goes back 17 years the Aloshikha is operating 41 pre schools in the different parts of the Barisal district. According to provision of the project every pre school has 30 children age about 5 to 6 and course duration of two years only. It is estimated that after two years of learning about 600 children able to admitted to the government primary school. During the learning period children were better informed about their rights and abuse and child labor and trafficking etc related issues. In our 41 pre school a total of 1230 children were enrolled every day during school period. They are getting free medical check up and quality sanitation and hygiene facilities and nutritious feeding facilities.

Kindergarten teachers	21	21	21	21	21
Pre-school teachers	40	41	41	41	41

E. Beth Mary Orphan Home

Primarily the Beth Mary Home started its journey in the year of 2014 with only 10 helpless street children and later it has included another 12 children and it means now 22 children are living in this Home. Most of them are age about not more than 6 years and some of children not have their mother or either father or some cases they have lost their both father and mother. In the light of Aloshikha RSD Center has taken this specialized initiative to ensure their rehabilitation including education, health and create employment opportunity in ebullient future. Currently all of children are studying in the Maria Child Care School that are operated and guided by the Aloshikha RSD Center. The chief initiator of the Home, Mrs. Martha Halder who thinks that it would be possible to established them in the main stream of our society at large through this service. Presently 12 children have come from Chittagong Hill tract zone and 10 children have come from Barisal and Kotalipara and apart from the many of children are coming every day from different geographic part of the country to this home but it would not been possible to receive them due to financial constraint and lack of other support. Merely as a private sector initiative it would have been not possible in meeting up to huge expense of study, dress, treatment, food, shelter etc. that we have to endure since 2014 -2017. In respect of we are earnestly requesting to extend helping hands for kind hearted man who are like to be support us at regional, national or international levels.

22 Children will be established in the society by providing Vocational Training Education after their successfully passing the SSC Examination. It will create employment opportunity at regional and national market and international labor market indeed. It will focus as a indicator and output of the program.

Orphan children with their teacher

F. Education Program (Kindergarten School)

We felt that education is important for all and without education none can take part to the nation building process. It is crucial that quality children education means the Kindergarten education. The Kindergarten education system is costly rather than government primary education in rural context. The Aloshikha has started initially one kindergarten school within its campus, eventually it came to three kindergarten schools in different places. The main focus of the program is to ensure quality education and include creativity activities on regular basis for their cognitive development. During the year two parents meetings were held at school premeses with a view to how their children achieved quality education. In Bangladesh all the Kindergarten schools are mainly academic oriented and we put little emphasis on extra curricular activities among the students. In addition the organization has able raise voice against the child abuse and child trafficking and their rights, road safety and to promoting their cultural heritage.

Yearly sports program

G. VTC Program

The Aloshikha RSD Center is operating one vocational training center within its complex. The main focus of the program to creates job replacement among the rural unemployed youth both the girls and boys. Until very recently the Center has affiliated from the Bangladesh Technical Education Board (BTEB) as SSC Vocational Course. In respect of only four trade courses are activating such as Mechanical, Welding Fabrication, Tailoring and dress making and Electrical. Out of welding trade other two trade have been approved by the Bangladesh Technical Board. According to the requirement and curricula of the technical Board every trade course has the 30 students as both the girls and boys. The center has able to convinced the local unemployed youth that vocational education is only the resource for income generating process and job facilities at national and international labor market.

School Examination going on

School children are attending examination

The Aloshikha Vocational Training Center is duly affiliated by the Bangladesh Technical Education Board. The Board has the responsibility to support to the center as to their provision as logistic and others support. In view of book distribution has completed among the students of the vocational training center recently.

H. Fishing Program

Aloshikha Fishing Program

The fish plays an important role in the Bangladeshi diet constituting the main and often irreplaceable animal protein source in poor rural households. The study addressed the dietary contribution of fish to vitamin A, calcium and iron intakes and the potential of integrating small indigenous fishes. In the light of the Aloshikha has undertaken fish cultivation program in its own water bodies both the high varieties and local indigenous species.

Rice and fish dominate the diet of Bangladeshis to such an extent that the old common proverb “mache bhate Bengali” which can be translated as “Fish and rice make a Bengali” continues to hold true. Fish is an essential and irreplaceable food in the rural Bangladeshi diet. Together with boils rice, this is eaten at least twice per day with small amount of vegetables and fish make up the typical meal.

Bangladesh is dominated by floodplains and rivers, which are rice ecosystems for fresh water fish. The floodplains which comprise over half of the country, are inundated annually during the monsoon season, and agriculture and natural fisheries complement one another. In the monsoon to post monsoon season (June to November) the floodplains provide an ideal habitat for the wide diversity of wild fish species, whereas in the dry season, the land is cultivated with rice. However, the importance of fish as a rich source of animal protein is well established and this is frequently used to justify fish as a valuable food, whereas very little attention has been given to the role of fish in supplying vitamin A and minerals in the diet.

I. Poultry Program

Since 22 years ago Aloshikha inspired to the community people for poultry farm business and it was much neglected business to the community people due to manifold problems such as bad smell from poultry faces, soft meat and only water inside an egg. So, Aloshikha has been achieved stupendous success through motivation and represented to the community people as model that it is a one kind of profitable business. Today there are many small poultry farms are being established surroundings areas behold with attention as model of Aloshikha poultry farm. It is really indeed, that community people have recognized as a pioneer of Aloshikha on poultry business. Presently it seems to be a profit making program since 1995-2017 by reared up high breed layer hen that were both the purposes table and eggs.

Hi-sex brownie

Sonali

Sonali Layer

Dairy Program

The Aloshikha has started its cow rearing program through Dairy Farm concept since 2017 and initially grassing for 7 cows, in view of to ensure pure milk production and sustainable supply to the local community as low cost. Unfortunately the program had not been profit making due to some adverse environment such lack of cow feed and inadequate grass land, low-lying flood prone area and have not seen abundantly high land where cows are grassing freely. In the following reason behind the program will be gradually going to be closedown.

Dairy farm

J. Dental Service Program

The Aloshikha Dental Clinic has been established to bridge the gap between the ever increasing demands for dental care and education service delivery both the Urban and rural areas. The Dental Clinic is located at Rajihar village under Agailjhara Upazila in Bangladesh, the Clinic cum Maria Mother and Child Health Care Clinic that blends the best of traditional and modern techniques backed by good qualities facilities like well equipped clinical dental department and, have general health care service delivery facilities. The Clinic is important and remarkable for its panoramic location and low cost improved service delivery to the clients.

It was an urgent need for basic dental health care and education in the remote region in Bangladesh. This program has expanded over only the three month past to encompass the entire local community. It is estimated that over 500 people have been instructed in proper oral dental care practices and behavior modification in order to over 1000 one thousand people were better informed by providing necessary communication and information. More importantly in terms of we able to convinced to the local community people who are not much informed to use toothbrush/ toothpaste for which supply has been made available, so every person can receive such materials and their financial limitations do not hinder their right to

proper oral dental health care and education. A study is shown that it should to need receive training for local community people who are not much aware on the point of issues. It could be much better to make the training more significant to include in the training component on proper brushing techniques from public oral dental health professional prior to them arrival in dental clinic at Aloshikha Campus. In view of, what we have done over the period on dental care and education that given below on table content.

K. Maria Mother General Hospital

This hospital grant was awarded from the Japanese Government in late 1997 for infrastructure development and purchase of materials but there had not been included any administrative cost in this grant. Still we are working our activities since over 15 years and all medical accessories using properly. In 1996 in order to reduce the gaps between health services and the community, and to raise awareness amongst the poor of available health program the Maria Mother & Child Health Care Clinic was established and later it comes to be a general hospital with strong referral system in the community of remote village under Barisal district in Bangladesh. During the design process of program staff of this general hospital has able to identify the health problems in the community. It also met with the Upazila health and family planning officer to identify the best approaches to meet the needs these vulnerable populations. Utilizing this community consultation approach that included inputs from local authorities have ensured increased by inform key policy and community makers. Under this project at least 12 female Health Motivators are working in the field levels and they are always active to identified primary health problem and recorded in to referral slips. Patients them take these slips to nearby Maria general hospital are given preferential treatment. For health parishioners, the use of the slips means doctors can quickly identify the issues of concern and more importantly see cases in need of treatment. However the main focus of the program is to provide low cost medical service delivery amongst poor section of people in the intervention areas, especially who are not able to access health services due to their acute poverty and adverse surroundings. In that cases the health motivators to take the responsibilities to identify gaps between the clients and provide them counselling what they should be done during pregnancy if any complicated have seen. They also to be active to provide how they reach postnatal and antenatal care and all sorts of primary health care services amongst poor community. Finally the hospital is registered with the Ministry of Health Bangladesh Government and recognized as 20 beds general hospital.

The above circumstances were the main reasons for Aloshikha to start a small hospital with advanced medical equipments and especial attention is given to the health condition of women and children. This hospital started its services in January 1997 and although it is expected that eventually the hospital will be self-sustaining in the long run but it is impossible to be self-sustaining right from the start. Aloshikha hopes to reach this start of self-sustainability in shortest possible time.

Maria Mother & Child Health Care Clinic services though the trained health providers are as follows:

- a. In door/Out door 24 hours along emergency management
- b. Major/minor operation facilities
- c. Ante-natal, neo-natal and post-natal along incubation facilities
- d. Diagnostics facilities such as Ultrasound, Diathermia, incubator, ECG, X-ray, Blood, urine, stool, sputum etc.
- e. Facility for the poor patients
- f. Patients referral (Ambulance) and out call facilities
- g. Family planning, safe motherhood, breastfeeding, HIV and hygiene counseling
- h. Audio/ Video health conciseness program for out/in door patients
- i. Especial session on collaboration with the Bangladesh government such as EPT, NID, sterilization etc.

Dr. Uttam Kumar Bakshi and the O.T team were prepared for caesarian operation.
