Annual Report – 2019

MESSAGE FROM THE EXECUTIVE DIRECTOR

This Annual Report contains the performance of the program activities from the period of January to December 2019. We are happy that with the support of our donor, Aloshikha in this reporting period has been able to effectively implement the program activities for the benefit of the poor and marginalized people through the community service delivery. The Aloshikha is committed to continue its support for the underserved and marginalized people especially in the hard to reach areas. It gives me great satisfaction to see that we have been able to serve the most in need people of Bangladesh in the areas of education and reproductive health and vocational training and education and rights. Once again our staffs have shown their dedication and hard work. But we do believe that more efforts need to be done and for this we are constantly undertaking improve projects and initiatives under various programs in response to the needs of our beneficiaries. In order to the all funding agencies and donors are requested to fund us to embark on activities for the marginalized and disadvantaged people who were deprived from services and victims of social inequality.

2019 was a momentous year for Aloshikha RSD Center Bangladesh. Just we celebrated 35 years of operations from our inception, and that has been a challenging journey, with active support from the people of the southwest region and generous support from development partners. We have made significant differences to the lives and landscape of this disadvantaged region.

I also wish to recognize the sincere and dedicated services of our staffs of the Headquarter and the Branch Offices for successfully implementing the program activities.

James Mridul Halder
Executive director.

Core Values:

- Innovation
- Empowerment
- Comprehensiveness
- Compassion, loyalty and commitment.
- Equality and participation
- Integrity, dedication, and professionalism.
- Responsibility, accountability and transparency.

Aloshikha RSD
Centre Bangladesh

Project Location

Introduction

The Aloshikha RSD Center is now just acting as windows on applied knowledge and provides links to sources of information. It is working harder exclusively in rural areas; the greater numbers of households and people have been involved in water and sanitation, vocational training and education, hospital for health promotion, closely followed by environment and forestry, fisheries and micro credits, providing small loans. In recent years, the donor has initiated several development projects addressing issues of coastal zone management and targeting programs to enhance livelihoods of the coastal population and trying out to empowering vulnerable rural poor women groups with economically empowered by transferring asset and shops for alternative income generation and self-employment.

Empowering the rural poor is a prerequisite for sustainable development and exercise of their rights. It requires challenging exclusion, discrimination and exploitation of and against the landless, women, indigenous people and other dispossessed. The Aloshikha RSD Centre Bangladesh is a professionally managed not for profit making charity based social development organization, registered with the social welfare ministry, NGO Affaires Bureau, micro credit regulatory and also affiliated by the ministry of health and family planning department in Bangladesh. The Aloshikha is committed to address various social and economic problems of the economically depressed and vulnerable groups in general. Empowerment of communities is a central focus issue of all Aloshikha development initiatives. Over the years, the organization has extended its geographical, beneficiary and programmatic coverage quite significantly. The long term development program now includes education both non formal and vocational training education, micro finance, poultry and fishery and water supply and sanitation. All this work is aimed to provide support to disadvantaged poor people. Over the year we have to face many difficulties and challenges with political unrest and natural disaster as well as financial constraints.

By the late 1995 an integrated comprehensive program superseded its sect oral work, focused on concentrated group organization of the poor, emphasizing social, education and economic elements. Since the Aloshikha successes have included the community based health and sanitation program to improving life on the out reach and remote villages are raising awareness of women rights and women empowerment, promoting savings, credit and skill training to improve the livelihoods of the poor section of the community. The Aloshikha program continues to evolve and innovate; current realities mean the program now comprises a range of various projects and financing large and small, which all contribute to a common objective. However, we are always encouraging to the local communities to developing all form of education in general or vocational education that could be make them smart and expertise to engaged any job or self supportive or self-employments.

The work area of Aloshikha RSD Center is located in southwestern Bangladesh, where the rivers Padma (called Ganges in India) and Jamuna (called Brahmaputra in India) merge into the Meghna river. The range of branches of these rivers form one of the largest deltas in the world. Floods are an annual phenomenon, making the area difficult to access and economic activities are hindered. Aloshikha has grown into a well-known local organization that tries to support the poorest in society by providing education, health care (including water and sanitation), and micro-credits for setting up small-scale economic activities. The working area of Aloshikha is in the districts Gopalganj, Barishal and Madaripur. In order to support outreach and all development activities, Aloshikha has established branch offices in four locations. In addition Aloshikha has established small community centers (PRIMA) where there is a class room for a pre-school and small office space for health education and micro-credit activities.

This report is a testimony to the fact that with a synergetic approach towards development with support from the donor community and the local people a lot can be done to improve livelihoods.

Aloshikha Mission statement:

Aloshikha is a Bangladeshi non-profitable humanitarian non-government organization supporting the holistic development of poor and landless people in the rural marshlands between Gopalganj, Madaripur and Barisal.

Aloshikha will support the development in the following ways:

- Education (elementary, vocational & food for education)
- Health & Nutrition (Clinical & PHP) (Traditional Birth Attendance) Family planning
- WASH (Hygiene & Sanitation) DTW (Safe drinking water) and distribute sanitary latrine.
- Protection (Women empowerment, Adolescent girls, SGBV activities and referral system Development)
- Income generation activities (IGA) (Poultry, Fishing , Dairy & milk production etc)
- Solar Panel System as Alternative Energy Sources
- Tribal Empowerment through Education and IGA
- To create awareness on the importance of child and blow education among local people.
- To create awareness on health, sanitation, women development issues and community problems To organize targeted poor people in small groups and make them skilled through education, trainings workshops and meetings etc.
- To encourage and motivate poor people to take steps to reduce their problems, improve their health conditions and their income.
- To encourage and support the poor people to start their own activities in order to create their own income, so that they will become self- sustained.
- To provide among children and their development through nutrition coverage, child health education, nutritious food, creativity materials etc.
- To provide the safe water supply for hygienic health through the DTWs and distribution sanitary latrine to the community people as sanitation coverage.
- To encourage and convinced the community people to provide renewable energy as solar system technology for alternative electricity.
- To create employment opportunity and job replacement among the local unemployed youth both the girls and boys and to export skill work force to the international labor market a vocational training center has launched in the Aloshikha complex.
- To encourage the local people to change their present situation.
- Aloshikha has a orphan in the campus area and Aloshikha work for them
- Aloshikha works for disability people

Women Empowerment:

The situation of women in Bangladesh is still one of insecurity, low social status and economic dependence. But many women believe in equality, equal rights, freedom from violence, free choice and full participation in all areas of society, political and work should be more than just dreams. The Aloshikha agrees and actively promotes women and women's issues in everything. Areas of concern for poor rural women include: their legal rights, gender equality at family and community level: domestic violence: sexual harassment and rape: reproductive health provision, trafficking of women and girls and migrant women, early marriages and dowries. Awareness raising, advocacy campaigns and practical projects are carried out across the spectrum stakeholders.

Promotion of Self Migration and Rights:

The program particularly focused on promotion of self migration and rights of Bangladeshi migrants workers: pre-departure, post- arrival and reintegration assistance for migrants to the Middle East countries. The program aims to establishing of pre-departure services and assistance in destination countries and upon return for Bangladeshi migrant workers and their families, including awareness rising on safe migration and prevention of undocumented migration in Bangladesh society in general. The main objective of this program is to promoting supportive environment for migrant workers and their families at all stages of migration with regards to respect for the rights and dignity.

Special events in 2019

1. Visit to Md Anowher Hossain Deputy secretary of NGO Beuro

MD. Anwar Hosain, Deputy Secretary of NGO Beuro from Prime Minister Office 13/03/2019, Friday, from 9am-5pm, he visited Aloshikha Rajihar Social Development Centre. Programs are: 1. Head office, 2. 10 bed hospital indoor outdoor visit, 3. Orphanage home & 37 orphan Childrens visit, 4. Vocational Training Center visit & he talked with admitted 150 students here, he also inspection different trade like-Electrical, Mechanical, Fashion Garments, Computer & ICT trade, Welding trade etc.

2. Executive Board Member ACN & Aloshikha

From 22 November to 26 November, 2019 Aloshikha's Executive Director James Mridul Halder & Chairman Swapon Kumar Falia visited Feasibility study ACN Nepal Kathmandu. On that time they visited different program ACN Nepal organization which includes, Child Club, disability groups, self help group, ACN cooperative, health hygiene promotion activities, & Child right etc. In future Technical Assistant will exchange their views of these programs with Aloshikha Bangladesh. Then we signed a MOU with ACN organization. In future Aloshikha & ACN organization these two organizations will work together technically with the help of FK NOREA.

3. Visit to LDS member

2nd June, 2019 Elder Michael Toone, Sister Carol Toone & Kristofer Johnson visited Aloshaikha's different programs like- Orphanage home, Boys & girls hostel, Hospital, Kindergarten school etc.

4. Visit to Joost & Nina

Date: 01/02/2019, Joost & Nina Verwilghen visited different programs of Aloskikha organization. Nina Verwilghen has come to Aloskikha after 20 years. We were very pleased to welcome her. Here in Vocational Training Center Nina & Joost Verwilghen delivered books among the students.

5. Visit to
Piter haupt groups

16/03/2019 Piter Houpt, Carola & Dr R.A Thieme Groen Robbin visited Alosaikha's different program like- Hospital, Orphanage home, Boys & girls hostel, Vocational Training Center etc.

6. Visit to Alosikha Wilde Ganzen
Marit & Sylvia

01/04/2019 from Wilde Ganzen Marit & Sylvia visited Alosaikha's different program like- Hospital, Orphanage home, Boys & girls hostel, Vocational Training Center etc.

7. Deer conservation program

Md. Abul Hossain Inspector and Research Officer Department of Wildlife Animal Conservator Bangladesh Government have exclusively visited Aloshekha on September 2019, particularly the Deer Conservation Program. After close scrutiny and necessary desk work, they issued a Firm category license to Aloshekha. Initially they given an individual license when start up the program where to be scope of reared up only 10 deer according to the rules of license. Currently the Firm has 16 deer with heavily protection around the wire net boundary and has an excellent proper scientific management and treatment and care.

Aloshekha have a deer conservation farm license

A Case Study of Manisha Baroi (Bashil Pre-school Student)

Name: Monisha Baroi, Date of birth: 11/08/2003, Father: Montosh Kumar Baroi, Mother: Dipali Ghatok. Her father is an Assistant Headmaster of Bakal Nironjo Boiragi Secondary School, Mother is an Assistant teacher of Ramanonderaak Secondary School & her younger brother reads in class 10. Monisha finished her A-group from Bashail Pre-school in 2009 & admitted into Primary School. In 2019 she passed S.S.C with GPA- 5.00 & now she reads in College. In future Monisha wants to be a doctor.

Sheikh Rasel Digital Lab Implemented by Aloshikha under the Vocational Training Centre

The Bangladesh is now digitalized country and most of the more young students are depended on computer due to their studies and employment. We cannot think that without computer any government or non government office do not have activated their program. So computer is necessary for all. Aloshikha has been providing skill training in computer course by Computer Trainers as such Md. Idrish khan who were trained up on computer technology from Techno Touch System Ltd. Currently, Aloshikha has providing the computer training services through establishing Digitalized Sheikh Rasel Digital Computer lab. It has 17 laptops, 8 desktop computers, 1 printing machine, and one scanner. In 2019, it gained permission from BTEB to operate Computer Trade as per government curriculum. In each year, Aloshikha start training with 30 students on Computer trade and hopefully will be able to give certificate to them on 2020.

Integrated Rural Health Support Programme

Nutrition Camp at village level children

Hotchpotch cooked for malnourished

The Aloshikha RSD Center always gives more emphasis towards the child health care and nutrition's deficiency. The program is funded by the SAKO Foundation the Netherlands, which continue to help us to work for health motivators to address the plight and problem of child health care services at field level. In the light of their visits to take the feedback of the community based health activities through field visits with health motivators and organizing the nutrition camp in the village. This year Aloshikha was organized 11 nutrition camps at different villages among malnourished babies where 330 malnourished mothers were present during nutrition camps. We motivated to the mothers about the cause malnutrition and its consequences

Green vegetable are processing before Nutrition camp

Visit to Nutartion camo Joost & Nina

Pre-school program

For last 28 years, Aloshikha is operating 41 pre schools in the different part of the Barishal district. According to provision of the project every pre school have 30 children age about 5 to 6 and course duration of two years only. It is estimated that after two years of learning about 600 children able to admitted to the government primary school. During the learning period children were better informed about their rights and abuse and child labor and trafficking and related issues. In our 41 pre school a total of 1230 children were enrolled every day during school period. They are getting free medical check up and quality sanitation and hygiene facilities and nutritious feeding facilities.

Aloshikha pre-schools & Kindergarten information at a glance (2015-2016-2017-2018-2019):

Year	2015	2016	2017	2018	2019
Pre-schools	41	41	41	41	41
Pre-school students	1230	1230	1230	1230	1230
Kindergarden (School)	3	3	3	3	1

Kindergarden teachers	21	21	21	21	21
Pre-school teachers	41	41	41	41	41

Mary Orphan Home (Middle Rajihar)

Primarily the Mary Home started its journey in the year 2014 with only 10 helpless street children and later it has included another 23 children and it means now 33 children are residing in the Home and receiving the services. Most of them are age about not more than 6 years and some of children not have their mother or either father or some cases they lost their parents. In the light of that, Aloshikha RSD Centre has adapted this specialized initiative to ensure their rehabilitation including education, health and create employment opportunity in ebullient future. Currently all children are studying in the Maria Child Care School which are also operated and guided by the Aloshikha RSD Centre. Mrs. Martha Halder, one of the dedicated social worker of Aloshikha thought first to take some initiative to established them in the loop of the mainstream of our society through different services. Currently 22 children are from Chittagong Hill tract zone and 11 children are from different places of Barisal and Kotalipara. Apart from this, many of the children are coming every year from different geographic part of the country to this home but which is beyond the capacity of Aloshikha to received due to financial constrain and lack of other support. Merely as a private sector initiative, it would not been possible in meeting up the huge expense of study, dress, treatment, food and shelter etc. support that we have to endure since 2014 -2019. In this respect, we are earnestly requesting to extend helping hands for kind hearted man who is like to support us from regional, national or international levels.

Education program (Kindergarten school):

We felt that education is important for all and without education none can take part to the Nation building process. It is crucial that quality children education means the Kindergarten education. The Kindergarten education system is costly rather than government primary education in rural context. The Aloschikha has started initially one kindergarten school within its campus; eventually it established three kindergarten schools in different places. The main focus of the program is to ensure quality education and include creativity activities on regular basis for their cognitive development. A parents meeting was held on school premises yearly 3 times in this year with a view to how they achieved quality education. In Bangladesh all the Kindergarten schools are mainly academic oriented and we put little emphasis on extra curricular activities among the students. In addition the organization has able raise voice against the child abuse and child trafficking and their rights, road safety and to promoting their cultural heritage.

Rajihar Kindergarten School Student

VTC Program

The Alosikhya RSD Center is operating one vocational training center within its complex. The main focus of the program is to create job replacement among the rural unemployed youth, both girls and boys. Until very recently, the Center has affiliated with the Bangladesh Technical Education Board (BTEB) as an SSC Vocational Course. In respect of only four trade courses are activating such as Mechanical, Welding Fabrication, Tailoring and dress making and Electrical out of welding trade, other three trade courses have been approved by the Bangladesh Technical Board. According to the requirements and curricula of the technical Board, every trade course has 30 students, both girls and boys. The center has been able to convince the local unemployed youth that vocational education is only the resource for income-generating process and job facilities at national and international labor markets.

All Teacher Book distribution ceremony

2nd Term Examination 2019

All teacher meeting with the Joost & Nina

The Alosikhya Vocational Training Center is duly affiliated by the Bangladesh Technical Education Board. The Board has the responsibility to support the center as to their provision as logistic and others support. In view of book distribution has completed among students of the vocational training center recently.

Fishing program

Aloshikha Fish project area

The fish play an important role in the Bangladeshi diet constituting the main and often irreplaceable animal protein source in poor rural households. The study addressed the dietary contribution of fish to vitamin A, calcium and iron intakes and the potential of integrating small indigenous fishes. In the light of the Aloshikha has undertaken fish cultivation program in its own water bodies both the high varieties and local indigenous species.

Rice and fish dominate the diet of Bangladeshis to such an extent that the old common proverb “Machee Bhatee Bengali” which can be translated as “Fish and rice make a Bengali perfect” continues to hold true. Fish is an essential and irreplaceable food in the rural Bangladeshi diet. Together with boiled rice, this is eaten at least twice per day with small amount of vegetables and fish make up the typical meal.

Bangladesh is dominated by floodplains and rivers, which are rice ecosystems for fresh water fish. The floodplains which comprise over half of the country, are inundated annually during the monsoon season, and agriculture and natural fisheries complement one another. In the monsoon to post monsoon season (June to November) the floodplains provide an ideal habitat for the wide diversity of wild fish species, whereas in the dry season, the land is cultivated with rice. However, the importance of fish as a rich source of animal protein is well established and this is frequently used to justify fish as a valuable food, whereas very little attention has been given to the role of fish in supplying vitamin A and minerals in the diet. Aloshikha has four big ponds, where it culture fishes both for the purpose of internal dietary supply and generating income for the organization.

Poultry and Dairy Program:

Since 19 years ago Aloshikha inspired to the community people for poultry farm business and it was much neglected business to the community people due to manifold problems such as bad smile from poultry faces, soft meat and only water inside an egg. So, Aloshikha has been achieved stupendous success through motivation and represented to the community people as model that it is a one kind of profitable business. Today there are many small poultry farms are being established surroundings areas behold with attention as model of Aloshikha poultry farm. It is really indeed, that community people have recognized as a pioneer of Aloshikha on poultry business. Presently it seems to be a profit making program since 2000 -2019 by reared up high breed layer hen that were both the purposes table and eggs.

Poultry House

Cow House

The Alosikhha has started its cow rearing program through Dairy Farm concept since 2000 and initially grassing for 9 cows, in view of to ensure pure milk production and sustainable supply to the local community as low cost. Unfortunately the program had not been profit making due to some adverse environment such lack of cow feed and inadequate grass land, low-lying flood prone area and have not seen abundantly high land where cows are grassing freely. In the following reason behind the program will be gradually going to be closedown.

Poultry increasing rate:

Year	2015	2016	2017	2018	2019
Total eggs	85000	91000	102284	262090	65340
Total Layer	2400	2600	1402	870	975

Dairy and milk production:

Year	2015	2016	2017	2018	2019
Milk kg.	1650	1800	2131	991	1800
Cows	6	8	8	4	4
Deer	13	22	21	27	16

Dental Service Program

The Alosikhha Dental Clinic has been established to bridge the gap between the ever increasing demands for dental care and education service delivery both the Urban and rural areas. The Dental Clinic is located at Rajihar village under Agailjhara Upazila in Bangladesh, the Clinic cum Maria Mother and Child Health Care Clinic that blends the best of traditional and modern techniques backed by good qualities facilities like well-equipped clinical dental department and, have general health care service delivery facilities. The Clinic is important and remarkable for its panoramic location and low cost improved service delivery to the clients.

It was an urgent need for basic dental health care and education in the remote region in Bangladesh. This program has expanded over only the three month past to encompass the entire local community. It is estimated that over 500 people have been instructed in proper oral dental care practices and behavior modification in order to over 1,000 one thousand people were better informed by providing necessary communication and information. More importantly in terms of we able to convinced to the local community people who are not much informed to use toothbrush/ toothpaste for which supply has been made available, so every person can receive such materials and their financial limitations do not hinder their right to proper oral dental health care and education. A study is shown that it should to need receive training for local community people who are not much aware on the point of issues. It could be much better to make the training more significant to include in the training component on proper brushing techniques from public oral dental health professional prior to them arrival in dental clinic at Alosikhha Campus. In view of, what we have done over the period on dental care and education that given below on table content.

Maria Mother General Hospital

This hospital grant was awarded from the Japanese Government in late 1997 for infrastructure development and purchase of materials but there had not been included any administrative cost in this grant. Still we are working our activities since over 15 years and all medical accessories using properly. In 1996 in order to reduce the gaps between health services and the community, and to raise awareness amongst the poor of available health program the Maria Mother & Child Health Care Clinic was established and later it comes to be a be a general hospital with strong referral system in the community of remote village under Barisal district in Bangladesh. During the design process of program staff of this general hospital has able to identify the health problems in the community. It also met with the Upazila health and family planning officer to identify the best approaches to meet the needs these vulnerable populations. Utilizing this community consultation approach that included inputs from local authorities has ensured increased by inform key policy and community makers. Under this project at least 12 female Health Motivators are working in the field levels and they are always active to identified primary health problem and recorded in to referral slips. Patients them take these slips to nearby Maria general hospital are given preferential treatment. For health parishioners, the use of the slips means doctors can quickly identify the issues of concern and more importantly see cases in need of treatment. However the main focus of the program is to provide low cost medical service delivery amongst poor section of people in the intervention areas, especially who are not able to access health services due to their acute poverty and adverse surroundings. In that cases the health motivators to take the responsibilities to identify gaps between the clients and provide them counseling what they should be done during pregnancy if any complicated have seen. They also to be active to provide how they reach postnatal and antenatal care and all sorts of primary health care services amongst poor community. Finally the hospital is registered with the Ministry of Health Bangladesh Government and recognized as 20 beds general hospital.

The above circumstances were the main reasons for Aloshikha to start a small hospital with advanced medical equipments and especial attention is given to the health condition of women and children.

This hospital started its services in January 1997 and although it is expected that eventually the hospital will be self-sustaining in the long run but it is impossible to be self-sustaining right from the start. Aloshikha hopes to reach this start of self-sustainability in shortest possible times.

Maria Mother & Child Health Care Clinic services though the trained health providers are as follows:

- a. In door/Out door 24 hours along emergency management
- b. Major/minor operation facilities
- c. Ante-natal, neo-natal and post-natal along incubation facilities
- d. Diagnostics facilities such as Ultrasound, Diathermia, incubator, ECG, X-ray, Blood, urine, stool, sputum etc.

- e. Resistance fund facility for the poor
- f. Patients referral (Ambulance) and out call facilities
- g. Family planning, safe motherhood, breastfeeding, HIV and hygiene counseling
- h. Audio/ Video health conciseness program for out/in door patients
- i. Especial session on collaboration with the Bangladesh government such as EPT, NID, sterilization etc.

Blanket Distribution

In occasion of winter, to alleviate the sufferings of poor community, Aloskha distributed more than 100 blankets. With the fund of 1 We Netherlands, Aloskha distributed the blankets among the ultra poor people at Agailjhara, Barishal through comprehensive survey to find out the needy people.

1 We program

Solar Panel System as Alternative Energy source

Apart from this, Aloskha has promoted renewable energy program as such as solar home panel system due to constant load shedding from the government electric supply sectors. In terms of some off grid areas we also provided solar home system where electric supply chain is inadequate and difficult to connect electricity from the government or non government electric supply authorities, partly because of their insufficient materials and man power and limited power generation. After a study of feasibility the organization intend to establish some solar irrigation pump to ensure food security in the rural field level with joint discussion on farmers group. It is estimated that under the solar irrigation program cultivatable all land should be come in to three cropping system in a year. This year, Aloskha distributed 20 solar panel among 20 poor families in Agailjhara, Barishal, Bangladesh.

1 We program

Wash Forum

Wash Forum AGM Meeting

Aloshikha has collaboration with the wash Forum different corner membership in our country. With faith, presently they have promoted 15 organization collaboration, in the Wash activities with the individual organization. Recently, WASH the water and sanitation status of the areas and its impact on the community and environment.

Feasibility Study Tour (ACN & Aloshikha)

NOREC workshop in Dhaka with Are & her Colleague

4th November – 6th November, 2019 NOREC organized Introductory Seminar Program in Dhaka. After the Seminar Raju & Roshni Gurung came to visit Aloshikha Rajihar Social Development Centre. 7th & 8th November they looked around different programs of Aloshikha and they signed an agreement between ACN & Aloshikha with Aloshikha's Executive member. In future both NGO will technically transfer technology with each other.
