## Foreword

*Aloshikha R.S.D Center is very glade to present the annual report of the year 2007. Aloshikha means the flame of the candle, which brings light in the darkness of illiteracy, social economical and health problem. Since more than 20 years Aloshikha R.S.D Center is trying to solve these problem in our working area through our integrated programs and projects. We are trying to bring the light to the community people, to improving their living conditions step by step steel today.*

*The achievements we made this year to only possible thought the commitment of a dedicated and motivated staff, the support of foreign donors-agencies and the co-operation with other NGO's working in our area and the Bangladesh Government. We like to thank all those who helped to fulfill our service*

*(James Mridul Halder)  
Executive Director*

### **Children are dancing in the school and a part of the creativity program**

#### **Events/age of group 2007**

In order to enable the children of poor families to attend pre-school, Aloshikha RSDC started small pre-schools in its working area: upazillas Agailjhara, Kotalipara, Kalkini and Wazirpur. The pre-school program started in 1978. The number of pre-schools gradually increased to 40 pre-schools at this moment. To give those children the opportunity to go to school and to remove illiteracy from society as well, Aloshikha RSDC is at this moment running 40 pre-schools in the working area, to children from 3 - 6 years. Currently there are more than 1,200 students attending these schools. In every school 30 students are enrolled. Teaching materials such as books, black board, bell, national flag, and football etc. have been provided. A pre-school committee, existing of village elders and parents guards every school, plays an important role in executing the project. The program is running smoothly now with the help of the parents to ensure the students attendance.

### **Children are doing physical exercise in every morning**

At present in our activities areas 40 (forty) pre-school were continuing and last year has been complete and each year 1200 children are going to be education through quality teacher technique. Weekly 4 times feeding and once a month high protein-feeding program are being continue. As consequences, each of the child's health is being improve and alongside child nutrition deficiency being improve.

### Children are eating nutritious food as eggs and milk

Since 1997 to 2007 Aloshikha have been working with great success among 11460 students and they have involved directly with pre-schooling program and their parents are enthused that education is a big part of livelihood. All of the pre-school students are habituated for school going. Most of them Aloshikha activities areas people are very poor, lack of knowledge and financial disabilities are the main cause for malnourished. Through feeding program being ameliorated their child nutrition deficiency. to create awareness on the importance of child and adult education among the local people in the target area. to create awareness on held, sanitation women development issues and community problem among local people and to encourage them to change the present situation and hygiene education.

### Children are play to the games of foot ball

At present in our activities area are 40 pre-school and yearly one times different kind of games. Every school are games end of December and January at the same time children are awareness to the games. On March 2006 for 04 to 06 years old children in order to boost-up their physical emotional and cognitive development. The creativity materials and games that are included in the pre-school can be played with single child and with a group of children as well. Children themselves can play some games in six age specific clusters.

AF, we had an opportunity to purchased materials for the creativity program to 40 pre-school in the year 2006 to 2007. According to our strategic plan, we have been provided creativity materials 40 pre-school and covered smoothly from March 2006 to 2007. Here noted that creativity materials like drawing, paintings, open creativity, color pencils, color paper, making toys, wood and used paper made toys are steel maintaining and keeping to the 40 pre-school.

### **Color uniformed Children**

At present in our activities area are 40 pre-school every school are 30 children, Each pre-school yearly will be received one times uniform, at the same time 40 pre-school are same color uniform and children are satisfy. Direct 30 student are benefiting each pre-school. However the total village 1000 inhabitant each benefited by the PRIMA project. We have provided short discussion among the rural people to create awareness and encouraged and motivated them to year round gardening to growing vegetables for income. General health, child care, health and nutrition, with a view to we have organized the Rural Activity Center Committee (RACC). In the first two years the RACC and Aloskha center has been provided three training courses in coordination with RACC. The discussion was taken by the Aloskha that the end of December 2007 two PRIMA should be handed over to the RACC. We are providing one nutrition camp to each PRIMA in a month for children to improving their good health. All the target project villages to aiming to create good education environment among the children as well as hygiene and sanitation, arsenic free drinking water facilities. The local committee had an opportunity to discussed their own domestic problems and solve to around on the PRIMA. GO/NGO are getting facilities to implement their different development work to the proper utilization of our PRIMA like EPI program by the government family planning department, various meetings, relief and rehabilitation program etc.

### **Medical check-up for the per-schools children**

Yearly two times medical check-up for 1200 students of 40 pre-schools and providing treatment with counseling about medical issues.

### **Maria Child Care Biddanikaton (Kindergarten school)**

In our activities areas two Kindergarten school and schooling program being continued among 300 students where Play to class 4 are existed. We were able to provide 13 qualified teachers for schooling program.

#### **40 Pre-schools teachers are receiving the training.**

Aloshikha R.S.D center will be arranged a 40 pre-schools teacher's training, yearly two times, At the same time all of the teacher to acquired knowledge, different kind of training, teaching method, teaching curriculum, teaching games etc. A six day long training workshop was organized by the Aloshikha R.S.D center to its pre-school teachers and supervisors. Topics included in the training were child psychology, child development, learning style, class room activities and class management. The training introduced pre-school curriculum of the Plan Bangladesh to the participator and total courses were conducted and facilitated by the Plan Bangladesh.

Result of teacher training as all the teachers of pre-school and supervisor of the program improving quality of pre-school teacher's and improved label of education for 1200 students as well.
